Subject: Upgraded PAF 406-98 with Increased Emergency Venting Capacity

---

Betts Industries introduces an upgraded model PAF 406-98, which is standard for all new PPVL assemblies. The PAF 406-98 now has a total emergency venting capacity of 494,084 SCFH at 6.25 psi. This is an increase of 35% over the previous flow rating of 363,820 SCFH. The upgraded liquid flow capacity for the PAF 406-98 is 1,335 gallons per minute @ 5.0 psig.
