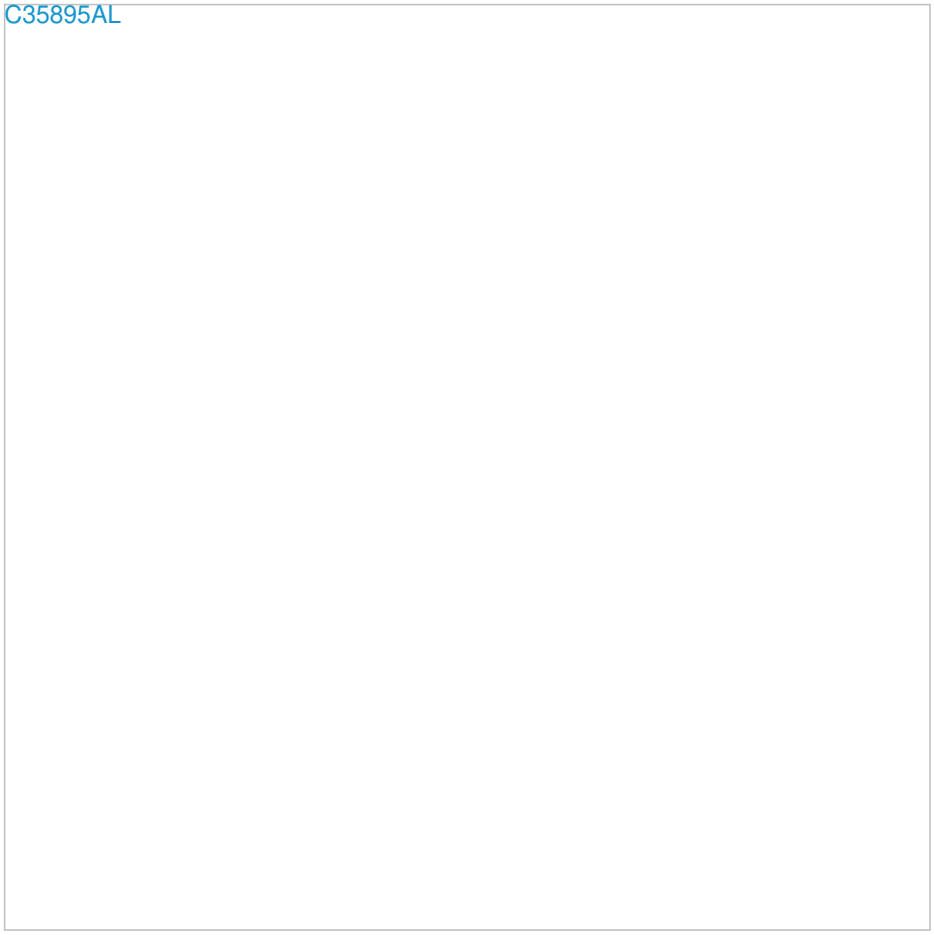
C35895AL



4” Schedule 40 Tees

Betts Schedule 40 cast weld tees are designed for use on cargo tanks and satisfy a wide variety of piping needs. These elbows are manufactured in accordance with API recommended practice 1004 with a minimum burst pressure of 4 times the MAWP per 49CFR178.345-9(b). MAWP rating is for fitting only; final MAWP is dependent on weld quality during installation.

Part No.	Material	Weight lb. [kg]	A in. [mm]	C in. [mm]	MAWP psi [bar]
C35895AL	ASTM B26 356F-Alum.	3.09 [1.40]	6.40 [162.6]	8.25 [209,6]	175 [12.1]
