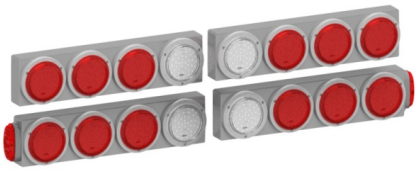
45 Series 4-Lamp Modules



Betts 45 Series 4-Lamp Modules are completely customizable with LED stop, tail, turn and backup that fit 45 series bodies or grommet mount and 200 series marker lamps where shown. Can be made with deep or shallow lenses and can be modified to suit the customer's application. The modules come completely wired and can have cable or plug interface to the customer's power source or junction box. Betts can custom make other painted steel, stainless steel or aluminum module frames to meet the customer's specification.

Contact Betts customer service for more information.
