Plug-Receptacle Leads

Betts offers plug and receptacle leads in a variety of styles, sizes, terminal families and lengths. The parts shown are our standard offerings, but other lengths and connector styles are available upon request. Our in-house harness and lead assembly work center can make almost any type of connector needed. The XXX numbers shown in the table equate to the length of the main lead cable of the harness in inches. For example, 920430-024 would have a main cable lead of 24 inches.
