Nose Boxes

This is a heavy duty aluminum junction box with 16 brass circuit studs. It is completely sealed and has 12 wire entrances distributed on 4 sides. The clear Snap-Seal polycarbonate cover enables easy access for circuit checking. Sealed entries include (1) cable entrance fitting 920402, (1) 1/2" N.P.T. plastic plug, (10) one hole cable choke seals 920413. A 16 pole hardware package is included. Surface mount.

Nose Boxes

B40 series nose boxes are standard with heavy duty Valox bodies. Covers and bodies are sealed with Betts Snap-Seal O-rings. Mounting gasket and screws are included. Bodies must be drilled and tapped for wire entry. Recess mount.

These new Betts heavy-duty nose boxes come completely sealed ready for installation. The 7-way socket comes with or without circuit breakers and is prewired to a 7-pole terminal disc. Machined glad hand (side blocks) 920042 are standard and replaceable. Fits existing trailer mounting brackets.

ABS heavy duty dual socket nose box ready for installation. Comes with ABS socket 920554 and standard socket 920427. Standard socket is prewired to a 7 pole terminal disc. A red and white jumper wire is wired from disc to disc to provide a ground and alternate ABS power source based on the trailer wiring.
